[An Existing Student Buying a Product you are already Enrolled in as a Gift](#)

Sometimes, a student who is enrolled in one of our products wants to buy as a gift. There are two possible ways this could be done.

If the student making the gift purchase is not already signed into their account they will be directed to the checkout once they have selected the product they wish to buy. At checkout, they will be asked to enter their email address and password, and once done, will be able to select the option to “buy as a gift” and can complete their purchase.

If the student making the gift purchase is already signed in and wishes to purchase the same product as a gift for someone else, they can do so by navigating to their Order History:

1. From their Student Dashboard, click on **their profile picture**
2. Select **My Account**
3. Select **Order History**
4. Select the order record related to the product they want to purchase
5. Select **Buy as gift**
